

Physical Layout of Burn-in Facilities

Tiffany (Wilkes) Landry
CDF Run 2b Workshop
UC Davis 7/28/03

Pre-production Burn-in Stand

Production Burn-in Stand

- Table with 4 x 8 piece of plywood overlaid with aluminum
- Power supplies will be housed on a shelf below the table
- All standoffs on the boards will be anchored to the table
- Wrist Straps for static protection
- Burn-in at room temperature, air circulated by fans

Production Burn-in Stand
